# LIFE AT LFIM

# AN EXPERIENTIAL MUSEUM

MS and GS students had a great time at the Museum of Solutions, a unique experiential museum where contemporary topics are tackled in a fun way.

Children viewed exhibits, participated in activities and explored learning experiences covering a wide range of topics, including sustainability, social justice, health, the environment and more.

# THE CARNIVAL

Students celebrated Carnival and Valentine's Day at school!

The origins of Carnival can be traced back to ancient civilizations, where festivities generally marked the change of seasons or agricultural cycles. In France, the history of Carnival dates back to the Middle Ages and was associated with religious rituals before evolving over time into a more inclusive celebration, reflecting cultural and social diversity. Colors, extravagant costumes, parades and frenetic dancing have become the mainstays of this festival.

Extravagant costumes and frenetic dancing at LFIM, a good sign indeed!

# A MUSICAL MORNING

As part of their music lessons in English, our CP-CM2 students visited the NCPA, Mumbai's iconic theater for the performing arts.

The students had the incredible opportunity to listen to a performance by the Indian Symphony Orchestra, India's first and only professional orchestra, and even had the chance to ask questions and chat with the conductor. Violin, tuba and trumpet demonstrations were followed by students trying their hand at the violin.

At any age, listening to the collective symphonies of an orchestra is always a pleasure!

## A WEEK IN THE MOUNTAINS

Secondary students explored Jim Corbett National Park and discovered the beauty of nature, wildlife and northern India.

Accompanied by their professors Nikeeta, Mihir and Sabir, the visit allowed students, both old and new, to bond outside of school.

In addition to not having screens with them, the week-long nature camp allows participants to explore life outside of a bustling metropolis.
